

# Robotics Fun Day

Friends and family enjoyed the journey into the world of robotics with young learners embarking on a discovery of math and science at the Bamber Camp, Fountains on Saturday 24 September.

Tony Roberts is spearheading this project on robotics for youngsters which encourages their interest in maths and science.

RCPE was awarded a certificate for its team's avid participation in the learning and implementation phase. A tree will be planted in our name in a local disadvantaged community.

THIS IS TO CERTIFY that a tree will be planted in a local disadvantaged community in the name of

ROTARY CLUB OF PRETORIA EAST

as a thank you for your participation in our Lego Robotics Project on 24 September 2016
