

Painting Kutumela Molefe Primary School with Mahindra

This was a joint project with Mahindra who generously sponsored the paint and equipment to paint the interior of the classrooms and where possible the exterior walls of the Kutumela Molefe Primary School. The school is on the eastern side of Pretoria, just off the R104 road to Bronkhorstspuit.

Work got underway on Saturday March 25, when around 20 staffers from Mahindra's head office supported by a similar number of teachers and staff from the school joined Judy, Robin and Aiden to start painting selected areas of the school that had been previously prepared by the school staff. In total, the joint team were able to complete the interior of seven classrooms as well as the exterior of one of the joint classroom blocks.
