SOUNS training at Berakah

The SOUNS literacy programme is going from strength to strength.

Six crèches from the Lethbong crèche forum that started with the SOUNS project in 2019, participated in a meeting on Thursday, 9th January 2020. Robin and Edie met with them to review the achievements of last year and to set objectives for the coming year.

The turn-out was disappointing in that 22 crèches were invited. This means that 16 crèches lost out on the opportunity for training and review that was offered. Robin and Edie feel that they achieved a lot on this day itself and hopefully by year end these six crèches will have progressed their kids to beginner readers.

Robin interacting with the teachers from the 6 of the 22 ccreches

It was also apparent that the legacy of Camilla's visit has sunk in well at Berakah. They have now firmly adopted the method of small groups of pupils all doing different activities and enjoying it. The teachers from Berakah who attended were very positive about the concept of group activities. Apparently, they implement the concept as a routine process.
