

Lending a Hand

The Rotary Club of Pretoria East has reached out to families impacted by the COVID-19 pandemic. Help continues to pour in for the two families being assisted by RCPE.

The club members as well as friends and a wide range of other benefactors in the community assisted both families with non-perishable groceries, frozen food, fresh produce, clothes, linen, other household items and toys for the children. School bags and pencil pouches were also included to provide the necessary items when school starts again.

The one family is coping well and the father has managed to work again. The 10-year old twins and their younger brother received toys.

The seven children in the other family of 9 were also kitted out with the remaining Four way-test T-shirts. All 7 are in school.
